Evacuation Plans

What We Provide:

FMS develops tailored Emergency Evacuation Plans for organizations of all types. Plans are designed through virtual site verification to ensure accurate layouts, proper orientation, and compliance with safety regulations. We collaborate with facility management, safety officers, and leadership teams to confirm optimal plan placement and display requirements.

Why Organizations Trust FMS

- Enhances safety for employees, visitors, and stakeholders
- Supports regulatory and code compliance
- Improves emergency readiness and facility navigation
- Provides clear, consistent visual guidance during incidents

Our Process

1 Site Survey

Review floor plans and layouts

2 Tailored Plan Development

Map evacuation routes and safety features

3 Legend Creation

Include AEDs, fire extinguishers, assembly areas, "You Are Here" markers, pull stations, exits, and directional arrows

4 Client Review & Approval

Confirm plan accuracy and placement

5 Final Deliverables

Provide PDF and CAD files

Client Responsibilities

- Provide the most recent facility floor plans with required line types, symbols, and annotations
- Approve locations for plan display
